Our AIEO, A number of NAIDOC-related activities will follow this, and I would like to thank our AIEO, Miss Chanelle O'Dine for her efforts in organising this event.

Secondly, we will be awarding certificates of Effort and for Achievement for those students in each class who have been identified as having consistently worked at being their personal best throughout the semester.

All families and community members are welcome to attend this very special event, which will begin at 8:45am.

School Holidays
End of Term 2 School Holidays begin this Friday at 3:05pm and the students are expected back at school on **Monday 19th of July.** It is important that students have a good break from school and return rested and ready to attend for a productive Term 3. Carey Park Child and Parent Centre News

Child and Parent Centre Carey Park

We're here for your child development needs!
All children develop at different rates, however sometimes children will need some extra support to make sure that they reach their full potential. Some areas that might need support are eating, hearing, talking, movement, hand skills and social skills.
If your child needs support, it is much more effective to get them that support **early in life.** WA Country Health Service offer free child development support, with a 0-4 years Child Health Nurse based on-site at the CPC and a Speech Therapist two days a week.

Why is it better to intervene early, rather than waiting until they are at school? Children develop really quickly during the early years of life (0-4 years) and these years set them up for the future. There is a lot of evidence that says support provided during this period of life can lessen or remove future support needs.

What if my child needs quite a bit of support? Wanslea is the local service provider for the Early Childhood Early Intervention program, which helps children under 7 years of age who may have a developmental delay or disability – no diagnosis is required to access support (which can include funding)

How do I know if my child needs support? Pop into the CPC and pick up a child development booklet (like the one pictured), and have a chat to the staff! You can also check out raisingchildren.net.au which is the Australian Government child development website.

You're always welcome to come in and see Tricia, Janine, Teresa or Olivia at the CPC – we're open from 8:00am to 4:00pm Monday to Friday! No appointment required.

Maggie Dent – Calming Our Kids FREE Livestream Event
Maggie brings her commonsense parenting approach to Bunbury Regional Entertainment Centre on Thursday July 5.
She will be live-streamed on the big screen to host a presentation about creating calmness, silence and stillness in our homes.
Creating calm in our busy worlds can be very challenging for parents and carers but is essential for both parent and child mental health and wellbeing.
The seminar will explore causes of childhood stress in our current environments and explore ways to reduce it, with practical strategies to try.
A panel of local parenting and relationship services will be available for a Q&A session after the seminar, including Tricia Ward from Child and Parent Centre – Carey Park. We'd love to see you there!
